

Canadian Antique Phonograph Society

Membership Application

CAPS membership includes a subscription to its 24-page, full colour, quarterly magazine, *Antique Phonograph News*, and an online Membership Directory. Classified advertisements in *APN* and on the CAPS web site are free to members.

Eight annual meetings are held at Centennial College in Toronto. Each meeting attracts more than 50 members and guests and includes a presentation on recorded sound history and an auction of phonographs, records, parts and ephemera. Admission is free and refreshments are provided. Meetings are also presented live using the Zoom platform which reaches our international membership and make CAPS meetings accessible to ALL members.

The membership year runs from January through December. If you join CAPS in January through July, you will receive all magazines for the current year. If you join CAPS after July, you will receive only the autumn issue of the magazine for the current year and all magazines for the following year.

There are two types of membership depending on your preference for the delivery of the magazine: a digital-only (PDF) membership for \$20.00 CAD with the magazine accessible online from the CAPS website or a digital / print membership for \$40.00 CAD (outside Canada \$50.00 CAD or \$40.00 USD) with the magazine accessible online and also delivered by mail.
